WORK EXPERIENCE

Project Manager, Hino Motors Sales Indonesia (October 2025 - Present) Jakarta, Indonesia with a focus on Enterprise Project Management, Digital Transformation, Leadership

- Directed a portfolio of 37+ enterprise ERP, system integration, and digital transformation projects across 9 business portfolios, managing end-to-end delivery from initiation through post-go-live with project budgets of up to IDR 5 billion.
- Led 27+ cross-functional team members, collaborating with 58+ executive, business, and technical stakeholders and 8+ technology vendors to ensure delivery governance, technical alignment, and successful project execution.
- Delivered enterprise solutions supporting 700+ internal users across 40+ dealer locations, leading business analysis, requirements gathering, solution design, UAT, deployment, change management, and hyper-care for mission-critical systems.
- Managed project scope, schedules, budgets, resources, risks, and vendor performance across multiple concurrent initiatives, maintaining milestone achievement and alignment with business objectives.
- Established project governance through RAID logs, project baselines, critical paths, executive dashboards, and delivery roadmaps using Jira and Microsoft Office, reducing project administration effort by 30%.

Project Manager, Incentro Asia Pacific (August 2024 - April 2025) Bali, Indonesia with a focus on Strategic Planning & Execution, Scrum, Stakeholder Management

- Managed end-to-end delivery of 10+ software implementation and digital transformation projects for 8 enterprise clients, including Google, OCI Global, Veilig Melden, and PadelVA, coordinating cross-functional teams, budgets, timelines, risks, and stakeholder expectations.
- Applied Agile Scrum and PMBOK methodologies by establishing delivery roadmaps, sprint planning, KPIs, OKRs, Jira automations, and workflow governance, achieving 95% delivery consistency within two weeks.
- Mentored project teams and interns on Agile delivery practices, Scrum ceremonies, stakeholder communication, and project governance, improving collaboration while achieving 100% internship completion.

Frontend Developer, Incentro Asia Pacific (August 2023 - August 2024) Bali, Indonesia with a focus on Agile SDLC, Software Developments, Automations

- Built 10+ client web applications using Vue.js, React.js, TypeScript, Flutter, Contentful, and Sanity CMS, delivering scalable solutions through Agile SDLC, GCP, and Bitbucket.
- Improved system efficiency by over 65% through UiPath REFramework automation and monday.com–WhatsApp integration, while leading development coordination across all SDLC stages.

Software Programmer, Internship, Hashmicro (Feb 2022 - August 2022) Jakarta, Indonesia with a focus on Odoo ERP Modules, MongoDB, Point of Sale (POS) System

- Enhanced Odoo ERP Point of Sale modules using Python, XML, and MongoDB, improving transaction processing speed by 35% while translating business requirements into technical solutions.

Frontend Engineer Specialist, Internship, Sagara Technology (Sept 2021 - Dec 2021) with a focus on Web Development, ReactJS, Learning Management System (LMS)

- Implemented responsive LMS features using React.js, managing development through Trello and collaborating with cross-functional teams to streamline workflows and improve user experience.
